About Galmed Pharmaceuticals Ltd.

Galmed is a clinical-stage biopharmaceutical company focused on the development of Aramchol, a first in class, novel, once-daily, oral therapy for the treatment of NASH. Galmed recently announced top-line results of the ARREST Study, a global, double blind, placebo-controlled Phase IIb clinical study designed to evaluate the efficacy and safety of Aramchol in subjects with NASH, who are overweight or obese, and who are pre-diabetic or type-II-diabetic. Galmed is currently preparing for an end of Phase IIb meeting with the FDA to discuss the results of the ARREST Study and a Phase III study protocol, with a view to initiating a Phase III clinical study of Aramchol in 2019.
